B. Consideration of Approval of Engineering Consulting Services Agreement with LS Gallegos & Associates, Inc.

Mr. Ray said Mr. Dick Bauman is now with LS Gallegos and this contract approval will enable Mr. Bauman to continue his services to the Authority and that there is no monthly retainer. The services are based on a Task Order basis.

Mr. Rosier asked if there is a task order and billing rate and type of services. Mr. Ray said there is no set type of services but he will be doing preliminary negotiations with the railroad. He will also review certain aspects of the construction along Rocky Flats, identification of modifications

if Hwy. 72 is not relocated and that impact on any new interchange alignment. He said those are just examples.

Mr. Icenogle said this is a task order contract and a task order will have to be issued by the Authority for the types of services Mr. Ray set out.

Mr. Rosier asked if any of these services have to go out to bid, under the By-Laws. Mr. Ray said given the unique knowledge Mr. Bauman has of this project from its inception and as project engineer for the Northwest Parkway and E-470, he is the most qualified.

He said he believes it will make a big statement that we are serious getting the parkway built and the improvements of the corridor and transportation throughout the region. He said he would like that consideration in 2014.
